Olufikayomi Jetawo

Profile

As a Full Stack Developer with 3 years of experience in front-end development and 1 year of experience in back-end development, I have a strong understanding of both the client and server-side of web application development. I am proficient in front-end technologies such as HTML, CSS, JavaScript, and various front-end frameworks like React and Next.js. I have experience in building responsive and intuitive user interfaces that enhance the user experience and improve retention rates. In addition, I have a good understanding of user experience and user interface design principles.

On the back-end, I have experience working with Node.js and Express.js to build RESTful APIs and back-end systems. I have experience in managing databases like MongoDB.

Skills

Front-end Development (HTML | CSS | JavaScript)

Frameworks and Libraries (Reactjs | Tailwind CSS | NextJs | Bootstrap | Express)

Other Technologies (Git | GitHub | Visual Studio Code | NPM | Postman)

Backend Development (Nodejs | Mongodb)

Education

11/2021 — present	**Bsc Computer Science,** *University Of Ilorin*	Ilorin, Nigeria
10/2015 — 09/2021	***Federal Science and Technology***	Ijebu-imusin, Nigeria

Certificates

- Hypertext Markup Language (HTML) ⧉
- Cascading Style Sheets (CSS) ⧉
- JavaScript ⧉
- Responsive Web Design ⧉

Professional Experience

02/2023 — present	**Web Developer,** *Trippayer* ⧉	Ikorodu, Nigeria

- Front-End Development: Implementing the UI/UX designs using Nextjs and Tailwind Css, translating static designs into interactive and responsive web pages.
- User Interface Integration: Collaborating with UI/UX designers to ensure accurate implementation of visual elements, ensuring consistency and adherence to brand guidelines.
- Back-End Development: Building the necessary server-side components using technologies like Node.js, and Expressjs to handle data processing, authentication, and integration with our proprietary payment system.

- Testing and Debugging: Conducting thorough testing to identify and resolve any issues or bugs, ensuring the website functions reliably across different browsers and devices
- Collaboration and Communication: Working closely with cross-functional teams, including UI/UX designers, project managers, and mobile app developers, to ensure seamless integration and a cohesive user experience.

2020 — present **Full-stack Developer (Freelancer)** Remote
- Adapted to different project requirements by using various frontend frameworks such as Bootstrap and Tailwind
- Developed responsive websites and web applications using HTML5, CSS3, JavaScript, and NextJs.
- Optimized website performance and loading speed by implementing best practices in web development.
- Designed and developed multiple web applications from scratch using React, Node.js, and MongoDB

Projects

Esquire Resort, *Fullstack Web App* ⧉
Developed an exceptional hotel website featuring comprehensive information, booking functionality with Paystack integration for secure online payments, a contact form for inquiries, a newsletter subscription feature, automated reservation confirmation emails, and an admin login system with authentication for reservation management. Created a seamless user experience to showcase the hotel's amenities, virtual tours, and exclusive offers. The project highlights expertise in web development, user interface design, and integration of payment gateways.

Yummy ⧉
Developed a dynamic website as a project for a food company, providing simulated information about the brand, showcasing a menu with enticing food options, and allowing users to simulate the process of ordering and making payments. Implemented an intuitive user interface for a seamless browsing experience and simulated checkout process. The website also includes a contact form to collect simulated feedback and inquiries. The project demonstrates proficiency in web development, user experience design, and the simulation of e-commerce functionality.

Print runner clone, *E-commerce site* ⧉
Collaborated with another developer to successfully clone an E-commerce website, demonstrating strong teamwork and technical skills. Replicated the functionality and design of the original site, including features such as product catalog, shopping cart, secure checkout process, user authentication, and order management. Implemented responsive design principles to ensure seamless user experience across different devices. This project showcased proficiency in web development, front-end and back-end technologies, and the ability to work collaboratively in a development team.
