Lagos, Nigeria | +2347031041271 | jetawof@gmail.com | Portfolio | Linkedin

EXPERIENCE

TRIPPAYER – Lagos (remote)

Web Developer – Transportation & Logistics Providers. Feb 2023 – Nov 2023

1. Developed an informative website providing comprehensive information about the company.
2. Integrated a booking system enabling users to:
    - ➢ Book rides instantly.
    - ➢ Schedule rides for future dates.
    - ➢ Make payments seamlessly through the platform.

G4L STUDIOS LIMITED – Lagos (remote)

Frontend Developer – E-Learning Provider. *Feb 2024 – Present*

- ❖ Contributed to the front-end development of a comprehensive e-learning platform designed to support multiple user roles including students, administrators, and teachers.
- ❖ Implemented user registration and authentication features for students, administrators, and teachers.
- ❖ Developed an intuitive interface that grants administrators full access to all site functionalities, allowing them to efficiently manage users and subjects.
- ❖ Created robust tools for teachers to upload and organize study materials based on the curriculum, facilitating a seamless educational experience for students.
- ❖ Engineered the platform to present tailored content to students based on their grade level, ensuring that each student sees relevant information upon login.

- Ensured the platform's versatility by making it reusable and easily adaptable for different schools, enhancing its scalability and usability across various educational institutions

ESQUIRE RESORTS – Ikorodu, Lagos

Full-stack Web Developer – Hotel Booking Site. *Jan 2023 – Mar 2023*

- Led the development of a sophisticated hotel booking website with the following features:
  - Designed a user-friendly interface for browsing and selecting hotel rooms, ensuring an optimal user experience.
  - Implemented a robust booking system that allows users to reserve rooms instantly and schedule future stays.
  - Integrated secure payment gateways to facilitate seamless transactions, supporting multiple payment methods.
  - Developed an administrative dashboard for hotel staff to manage reservations, update room availability, and oversee customer inquiries.
  - Enhanced the platform with personalized user accounts, enabling customers to view booking history and manage upcoming reservations.
  - Ensured the website's responsiveness and compatibility across various devices, providing a consistent experience for users on desktops, tablets, and smartphones.

BIg Circle – Lagos (remote)

Full-stack Web Developer – Social Networking Site. *Jan 2024 – Present*

- Developed a dynamic platform that enables users to connect with others who share similar interests, incorporating advanced social networking features.
- Designed an intuitive user interface that facilitates easy user registration and profile creation.
- Implemented robust search and matching algorithms to help users find and connect with individuals who have similar interests and hobbies.
- Integrated a real-time chat feature using WebSocket technology, allowing users to engage in instant messaging and live conversations seamlessly.

- Developed personalized user dashboards that provide recommendations for new connections and relevant interest groups.
- Ensured data security and user privacy by implementing secure authentication and data encryption measures.
- Optimized the site for performance and scalability, ensuring smooth operation under high user loads and providing a consistent user experience across various devices and platforms.
- Conducted extensive user testing and feedback sessions to continually enhance and refine the platform's features and usability.

PERSONAL PROJECTS

Print Runner (Clone) – Lagos (remote)

Frontend Developer – E-Commerce Site. *Dec 2022*

- Collaborated with a fellow developer to recreate a comprehensive e-commerce website, focusing on enhancing user experience and functionality.
- Designed and implemented a modern, intuitive user interface to improve customer navigation and engagement.
- Developed and integrated a robust product catalog system, allowing users to easily browse and select from a wide range of printing products.
- Implemented a streamlined checkout process, incorporating secure payment gateways to support various payment methods and ensure safe transactions.
- Enhanced the site's responsiveness, ensuring optimal performance and usability across different devices, including desktops, tablets, and smartphones.
- Conducted thorough testing and debugging to ensure the site's stability and functionality before deployment.
